L'equilibrio del comfort

The balance of comfort

Crediamo che il vero lusso risieda nella capacità di offrire un relax su misura e un benessere da vivere ogni giorno. Da questa visione nasce Move Collection, una linea di sedute che accompagna il movimento con naturalezza, trasformandosi in modo confortevole. Ogni modello ricerca un equilibrio preciso tra morbidezza e sostegno, lasciando che il gesto trovi la propria posizione. È per questo che la sensazione di relax è diversa: interpreta il corpo senza limitarlo, con discrezione e continuità.

We believe that the true luxury lies in the ability to offer tailored relax and a well-being to enjoy every day. From this vision comes Move Collection, a line of seating that naturally follows movement, transforming comfortably. Each model seeks a precise balance between softness and support, allowing every gesture to find its own position. This is why the feeling of relaxation is unique: it interprets the body without restricting it, with discretion and continuity.

Il piacere della convivialità

The pleasure of conviviality

Pensate per accompagnare i momenti di convivialità, le sedute Move Collection si regolano in modo automatico, senza leve né maniglie, seguendo i gesti con naturalezza. Inclinandosi in avanti, la seduta si adatta riducendo la pressione sotto le gambe e sostenendo la schiena; appoggiandosi all'indietro, lo schienale accoglie il movimento mentre la seduta scorre, aprendo una posizione più rilassata. Un comfort discreto che invita a prolungare il tempo a tavola, accompagnando ogni incontro con naturalezza e armonia.

Designed to accompany moments of conviviality, Move Collection seating adjusts automatically, without levers or handles, naturally following every gesture. When leaning forward, the seat adapts by reducing pressure under the legs and supporting the back; when leaning backward, the backrest welcomes the movement while the seat slides forward, opening into a more relaxed position. A discreet comfort that invites you to spend more time at the table, accompanying every encounter with naturalness and harmony.

Il benessere del lavoro

Well-being at work

Che si tratti di una stanza dedicata o di un angolo del soggiorno, lavorare da casa richiede una seduta in grado di sostenere l'attività quotidiana con equilibrio e naturalezza. Le sedute Move Collection sono progettate per favorire una postura naturale durante le ore trascorse davanti allo schermo, accompagnando i movimenti del corpo e riducendo la sensazione di affaticamento. Lo schienale morbido garantisce un sostegno equilibrato alla schiena, permettendo di restare seduti più a lungo con una sensazione di comfort diffuso, discreto e costante.

Whether in a dedicated room or a corner of the living room, working from home requires seating capable of supporting daily activity with balance and naturalness. Move Collection seats are designed to promote a natural posture during hours spent in front of a screen, accompanying the body's movements and reducing the feeling of fatigue. The soft backrest provides balanced support for the back, allowing you to remain seated longer with a sense of widespread, discreet, and constant comfort.

Le sedute si adattano all'ergonomia del corpo grazie a un sistema integrato che coordina l'inclinazione dello schienale con l'avanzamento della seduta, generando fino a 5,5 cm di apertura supplementare per entrambi. I tre snodi sincronizzati tra loro, del meccanismo di movimento, garantiscono una variazione d'assetto progressiva e naturale.

The seats adapt to the body's ergonomics thanks to an integrated system that coordinates the inclination of the backrest with the forward movement of the seat, generating up to 5,5 cm of additional opening for both elements. The three synchronized joints of the movement mechanism ensure a progressive and natural change of position.
